

Leander Independent School District presents:

PARENTING THE *Love & Logic* WAY®

Mary Ann Kluga, RN, MPS, LCDC, Leander ISD's Alcohol Drug Awareness & Prevention Team (ADAPT) coordinator, and Todd Pfaff, Assistant Principal at Vista Ridge High School are offering the Parenting the Love and Logic Way® course during the fall of 2017. Another class will also be offered by Mary Ann Kluga, RN, MPS, LCDC counselor in early 2018 with more details to follow. This six-week program is designed to help parents nurture responsible, respectful, fun to be around children who will learn how to make their own choices, own their problems, think critically and logically for themselves, while parents let empathy and consequences do the teaching.

The course is appropriate for parents with any aged child and any situation: home, school or even work. The instructional approach includes discussions, video clips presented by the Love and Logic Institute staff, workbook exercises and homework to practice the "new" skills presented at each class. You do not need to have a child in Leander ISD to attend. Any one is welcome.

**Fall 2017 Class is on Tuesdays from 10:00 AM – 12:00 PM or 6:00 PM to 8:00 PM
at Vista Ridge High School at 200 S. Vista Ridge Blvd., Cedar Park 78613.**

Dates: October 10, 17, 24, 31, November 7, and 14, 2017

There will be one more class offered in early 2018. Dates and place to be determined.

The cost is \$35 per individual and \$55 per couple if you share the materials. If you have taken the Becoming a Love and Logic Parent® course previously at LISD, the revised workbook is available for \$10.

*Scholarships are available. Child care is **NOT** available.*

To register or for more information, go to www.leanderisd.org.

Select the Parents Tab, then click on Family Involvement, Parenting the Love and Logic Way® classes.

The Becoming a Love and Logic Parent Class goals are designed to help parents:

- Create home environments that stimulate responsibility, resiliency, and academic achievement.
- Prevent misbehavior.
- Avoid power struggles while setting limits.
- Teach character and responsibility through modeling and the application of logical consequences instead of punishment.
- Teach children healthy problem-solving skills.
- Stay calm in stressful parenting situations.
- Help children become prepared to resist drugs, alcohol, violence, and other dangerous behaviors.
